01 EMBRACING CHANGE

02 HOW TO GROW IN TIMES OF CHANGE

03 LEADERSHIP IN CHANGE

04 RESILIENCE

05 MOTIVATION

People are stuck.

Colleagues, associates, managers and leaders are overwhelmed by all the change they are seeing and feeling in their work, in business and in life. Stress and anxiety have become the new normal.

Bob has been in their seat and shares powerful lessons on how he was able to embrace change in his job to reinvent himself and grow his career, boosting performance, reducing stress and moving forward in his life.

Having no budgets, no resources but still finding a way to adapt to change and move forward to find success is something Bob has done throughout his career at one of the biggest companies in the world – Pfizer Inc.

Through his personal journey – funny, inspiring, instructive, Bob helps people get unstuck, accept change, own their change and move forward and take action – boosting their engagement, their performance, reducing stress and improving their life.

In his speech, he will talk about the four core principles that we must live each day in order to get unstuck. Bringing in relevant examples of his own life and career as well as bringing outside examples, Bob will not only inspire but also provide a valuable blueprint for moving forward.

His core message is: You Cannot Control the Chaos - You CAN Control you.

Core Principles

Accept & Own It

- Accept that the only control we have is of ourselves
- Accept that perfection is an illusion
- Accept that the power to grow is up to us
- We must OWN the change and take personal responsibility.

Re-Imagine Our Future

- We must let go of our past mindset.
- We must create certainty of a new future that will pull us forward through the chaos and change.
- Create a clear vision of the new future.

Stop Overthinking

- We get stuck when we overanalyze, overthink and try to predict the future.
- Focus on why it happened is not productive.
- Don't get stuck on imperfection.

Move Forward & Take Action

- Action gives us consequence. If it's good – do more. If it's bad – learn and move on.
- Action makes us feel better.
- Action puts in motion the butterfly effect leading us to grow in ways we cannot imagine.

People don't change because they're told to change. They change because they make a choice based on feeling and emotion. Hearing Bob speak and lead them through a self-discovery journey of embracing change gives them a powerful spark to move forward.

Here's how Bob customizes his talks for you:

- 5 Then we set up 2 conference calls with you - the client - to ensure Bob is on track in writing his speech with relevant and timely content and examples, with a final 10 Day Before Event check in.
- 6 Bob delivers an inspiring keynote speech and/or workshop. Bob prepares customized materials leave behind tools for your colleagues to own it and move forward.
- 7 Thirty days post the event, you'll receive a video message from Bob for your colleagues reminding them to take action.

“We have to own our change. It's up to us to accept it and do something about moving our job, our business and our life forward.”
